

Decorative cushion

Available in three sizes

Square
CDQ40

Square
CDQ50

Rectangular
CDL60

A soft and light decorative cushion, with simple and linear lines, which enriches and enhances garden seating. It has been designed specifically for outdoors as it has been specially treated, but it is also perfect for indoor use.

The special internal foam rubber moulds itself to welcome and give maximum comfort, then returns to its original shape. Thanks to the zip, it is easily removable and therefore washable. Available in a wide range of fabrics and colours.

Decorative cushion

100% acrylic fabric

100% acrylic fabric refined and pleasant to the touch while having a certain firmness. It has a natural appearance and can be used indoors and outdoors. Protected by a water-repellent finish with an anti-mould, stain-resistant, sun-resistant treatment and high colour fastness.

Maintenance

100% PAC Dralon fabric

It is incredibly soft to the touch and has a pleasant appearance. It can be used outdoors because it is water repellent. It has high functional qualities. It is protected against UV rays and is durable and resistant to wear. It is stain-resistant, avoids absorption and makes daily cleaning easier.

Maintenance

Maintenance for all fabrics

The fabrics meet the highest quality standards for outdoor use. If it rains, avoid leaving them outside or, if necessary, allow them to dry immediately in order to prevent moisture stains and mould. Avoid prolonged contact

with greasy substances that could create permanent stains and deteriorate the structure. If used near the sea or in swimming pools, periodic washing is recommended. Use water and neutral, colourless liquid detergents.
