

GAO

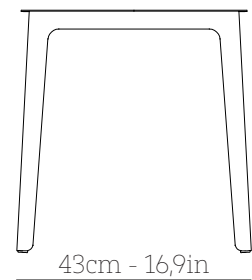

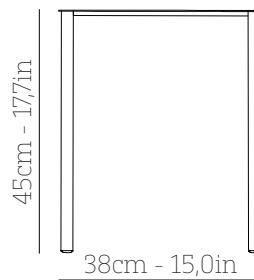

Design Simone Bonanni

Stool cod. GAOST

Material: steel

Weight: 4,9 kg

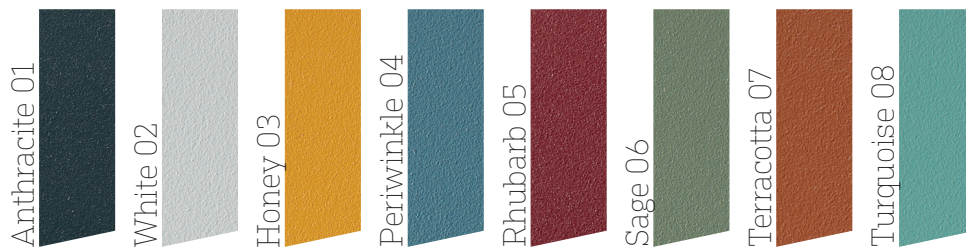

* 2D and 3D files are available at www.babeld.it

Galvanising

Application of a zinc layer that provides high corrosion protection.

Powder coating

60-80µm polyester powder coating for outdoor resistance and high protection.

Maintenance

BABEL D products are treated to guarantee a long service life while preserving their functional and aesthetic qualities. BABEL D products will last longer if you take care of them by cleaning them with a soft cloth and water or neutral detergents every three to six months, depending on the

environmental and climatic conditions.

Do not use abrasive detergents and brushes. Be careful using BABEL D products in marine environments with high humidity or near swimming pools, especially in closed environments if chlorine is used as a disinfectant.
